

# Evaluation of ATT Performance by the Approved Veterinary Supervisor

For completion between four and six months after the date of full authorisation of the Approved Tuberculin Tester (ATT).

This completed document must be added to the ATT's training record prior to the six month deadline date along with a declaration from the AVS or deputy completing the audit. Failure to do so will result in suspension or expiry of the ATT's authorisation.

The purpose of this form is to obtain your observations of the quality of the TB test performed by the ATT. Please complete **all** pages. Space is provided at the end if you wish to expand on your answers or to provide further comments.

**Your name**

**Name of veterinary practice**

**Name of ATT**

**Date of TB test (TT2)**

**Farm name**

**CPH number**

**Number of cattle TB tested by the ATT at this visit**

|    | <b>Question</b>                                                                                       | <b>Yes</b>               | <b>No</b>                |
|----|-------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
| 1. | Was the ATT dressed appropriately in Personal Protective Equipment (PPE) before starting the TB test? | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. | Did the ATT disinfect their boots and protective clothing on arrival?                                 | <input type="checkbox"/> | <input type="checkbox"/> |

3. Did the ATT disinfect their boots and protective clothing before leaving? ☐ ☐
4. Did the ATT have the correct equipment with them to be able to carry out the TB test? ☐ ☐
5. Did the ATT handle the cattle in an appropriate and welfare-friendly manner? ☐ ☐
6. Were any reactors and/or inconclusive reactors (IRs) found at this TB test? ☐ ☐
7. To what extent do you agree or disagree with the following statements? (Select one box for each statement):

|                                                                                                                                                                                   | <b>Strongly disagree</b> | <b>Disagree</b>          | <b>Neither agree or disagree</b> | <b>Agree</b>             | <b>Strongly agree</b>    |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|----------------------------------|--------------------------|--------------------------|
| a) I was satisfied with the ATT's placement of the injection sites                                                                                                                | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>         | <input type="checkbox"/> | <input type="checkbox"/> |
| b) I was satisfied that the ATT achieved intradermal 'blebs' on injection of tuberculin                                                                                           | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>         | <input type="checkbox"/> | <input type="checkbox"/> |
| c) I was satisfied that the ATT confidently identified and recorded any circumscribed skin reactions present (leave blank if not applicable)                                      | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>         | <input type="checkbox"/> | <input type="checkbox"/> |
| d) I was satisfied that the ATT confidently identified and recorded any SO (oedema) skin reactions present (leave blank if not applicable)                                        | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>         | <input type="checkbox"/> | <input type="checkbox"/> |
| e) I was satisfied that the ATT confidently identified inconclusive reactors (IR) and/or reactors (leave blank if not applicable)                                                 | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>         | <input type="checkbox"/> | <input type="checkbox"/> |
| f) I was satisfied that the ATT accurately recorded the official identity of the animals, any skin reactions observed and any relevant comments/observations on the TB test chart | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>         | <input type="checkbox"/> | <input type="checkbox"/> |
| g) Overall, I was satisfied that the ATT was careful and accurate when performing the TB test                                                                                     | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>         | <input type="checkbox"/> | <input type="checkbox"/> |
| h) I was satisfied that the ATT provided a clear explanation to the farmer of the outcome of the TB test and next steps                                                           | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>         | <input type="checkbox"/> | <input type="checkbox"/> |
| i) I was satisfied that the ATT stored the tuberculin according to the data sheet requirements                                                                                    | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/>         | <input type="checkbox"/> | <input type="checkbox"/> |

8. Any suggestion for improvement of the ATTs performance?

9. Any further comments?
